

Session Program

May 18 - 23, 2026

Microfluidic Horizons 2026

Monday 18/05, 10 - 13; Room 35

Mon, May 18

10:00 AM

Monday 18/05, 10 - 13; Room 35

Session

10:00 - 10:20 AM

The counter-intuitive motion of droplets and bubbles in co-axial channel flows

Speaker

Steffen Bisswanger

10:20 - 10:40 AM

In-air droplet generation in microchannels using co-flow focusing configuration

10:40 - 11:00 AM

Two-Phase Flow in Micro-Venturi: analysis of the complexity of Cavitation flow under Microscale Confinement.

Speaker

Edoardo Sech

11:00 - 11:20 AM

Microfluidics for emulsion science and product development

1:00 PM
