## Thursday 21/05, 14 - 19; Auditorium

### Session

3:00 - 3:20 PM **Locally recirculating flow at near-zero Reynolds number**

**Speaker**

Dr Alexandre Avaro

3:20 - 3:40 PM **Dynamics of evaporating, interconnected droplets**

**Speaker**

F. Box

3:40 - 4:00 PM

**Stokes drag on a sphere in a three-dimensional anisotropic porous medium**

4:00 - 4:20 PM **Mitigating sedimentation in syringe-driven microfluidic systems**

**Speaker**

Riccardo Reale

7:00 PM
