

Spring Workshop on Physics of Data

Wednesday, 6 April 2022

Machine Learning, Data Science & Interdisciplinary applications (14:45 - 16:15)

-Conveners: Samir Suweiss

time	[id] title	presenter
14:45	[4] Timescales of neural activity, their inference and relevance.	LEVINA, Anna
15:30	[5] Physics of data for social impact	OMODEI, Elisa

Machine Learning, Data Science & Interdisciplinary applications (16:45 - 18:00)

-Conveners: Samir Suweiss

time	[id] title	presenter
16:45	[6] Failure and success of the spectral bias prediction for Kernel Ridge Regression: the case of low-dimensional data	TOMASINI, Umberto
17:00	[7] Language-dependent model-based deep reinforcement learning	DAINESE, Nicola
17:15	[8] Rethinking the Geometry of Machine Learning: "Physics of Data" Five Years Later	BYERS, Jeff
